Highly motivated and resourceful UI/UX Developer & Front-End Developer with 4.10 years of proven experience in building responsive, scalable, and user-friendly web applications and websites. Skilled at leveraging AI tools like GitHub Copilot and ChatGPT to streamline development, boost productivity, and solve complex challenges efficiently. Passionate about writing clean, maintainable code, delivering optimized UI/UX, and continuously upskilling to stay ahead of evolving web technologies.

EXPERIENCE

UX/UI Developer | Formidium India Private Limited | Jaipur, Rajasthan

February 2022 – July 2025

- Built and maintained React applications with a focus on reusable, scalable components.
- Integrated third-party and custom APIs to deliver dynamic, real-time data-driven features.
- Translated Figma designs into pixel-perfect, responsive interfaces using Tailwind CSS and Bootstrap.
- Managed and maintained 12+ high-traffic websites, ensuring optimal performance, functionality, and visual appeal.
- Designed and developed modern, user-centric product pages, enhancing UX and contributing to increased engagement.
- Spearheaded new feature development, adding interactivity and improving overall user satisfaction.
- Conducted market trend research and proposed innovative design strategies aligned with current UI/UX best practices.
- Continuously optimized and updated existing websites to maintain responsive, up-to-date designs.
- Identified and implemented custom web solutions to meet both business goals and client requirements.
- Collaborated with cross-functional teams (designers, marketers, developers) for cohesive branding and platform integration.

Web Designer | Uplogiks | Jaipur, Rajasthan

November 2020 – February 2022

- Developed and maintained 50+ responsive WordPress websites with a focus on performance and user experience.
- Translated PSD designs into pixel-perfect HTML/CSS layouts.
- Customized and extended WordPress themes and plugins to enhance functionality.
- Designed and implemented mobile-first, responsive UI/UX using Elementor, Gorilla Forms, and custom contact forms.
- Ensured cross-device and cross-browser compatibility for all projects.
- Wrote and maintained clean, reusable, and well-documented code.
- Performed regular website maintenance, updates, and performance optimization.
- Conducted market research to apply modern web design trends and best practices.
- Built and integrated reusable components and code libraries for efficient development.

Trainee in Web Development | Uplogiks | Jaipur, Rajasthan
May 2019 – July 2019

- Gained hands-on experience with various web development models, tools, and methodologies.
- Created visually appealing web graphics and design elements to enhance user engagement and UI aesthetics.
- Designed web mockups and logos using Adobe XD, ensuring consistency with project requirements and branding.
- Contributed to UI/UX design efforts, focusing on usability, visual consistency, and modern design principles.
